- Automated service booking and technician scheduling for operational efficiency.
- Project: Healing Garden**

09/2024 – present
Bengaluru

Full Stack Developer

Simpliaxis [🔗](#)

Project: Simpliaxis-WEB [🔗](#)

- Built responsive UI using HTML, CSS, Bootstrap, and Figma design references.
- Made pages dynamic using jQuery and Laravel blade templating.
- Integrated Laravel backend logic with static HTML components to deliver fully functional web features.
- Managed tasks using JIRA and collaborated with designers and developers to meet project deadlines.

Project: Simpliaxis-Axis [🔗](#)

- Developed dynamic React.js components connected to Laravel APIs using Axios.
- Created LMS modules, user dashboards, and business logic layers.
- Used Redux for frontend state management and conducted unit testing with Jest.
- Optimized backend MySQL queries, improving performance by 30%.
